

Your healthcare professionals are participating in research funded by the NHS. The project will look at the experiences of patients and professionals, and how patients get information they need, especially when it comes from the internet.

We have the support of the Stockport healthcare Trusts and the approval of the following charities: Depression Alliance, Diabetes UK, Breast Cancer Care and The Prostate Cancer Charity.

We want to know about YOUR experiences of using healthcare services and the internet

We want our research to help patients in your position and to help healthcare professionals understand your needs in the best possible way.

Depression - Diabetes - Breast Cancer - Prostate Cancer

If you are concerned about a health issue that might indicate one of the above conditions, and want to share your experiences with us, please:

- ask the receptionist for more information and tell your GP you're interested
- ring Diane on 0161 275 6327
or Debbie on 0161 275 6569
- or e-mail: bewebhealthy@mbs.ac.uk
